Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	<i>Visual art, film & photography, cultural patrimony, heritage, anthropology</i>
Description or summary of the proposed project	"People & Deltas" is a visual art project, which aims to document the cultural diversity of delta areas by putting the inhabitants of the deltas in the foreground. Deltas are generally associated with flora & fauna. A simple Google Images search confirms this: no locals appear on the first page of results; the few people who show up are tourists. We will naturally approach people from varied places and social categories without looking for the extremes, we will stay away from topics mostly found in the mainstream media. We will take photos and interviews with people from deltas in different countries, thus carrying out a comparative visual study. Then we will present it in multimedia exhibitions both in dedicated spaces (museums in cities) and in areas with limited access to culture. A selection of the gathered materials will be uploaded on a dedicated website.
Partners currently involved in the project	We will document Danube Delta (Romania), Ebru Delta (Spain), Kizilirmak Delta (Turkey). We would like to extend the project in other countries (in

	Denmark, where we already have a partner), but also in Norway, Sweden, France, Italy, Poland, Netherlands, Lithuania, Sweden.
