**Proposed Creative Europe project – to which project are you looking for partners?**

Sector or field	Festivals   Concerts   Exhibitions   Art Installations   Urban Interventions   Performances   Workshops
Description or summary of the proposed project	We are looking for partners for a project that seeks to create an international think tank of curators and researchers dedicated to thinking creatively about cities and urban culture. We intend to build a collaborative project based on our Community Workshops project and that can have expression in various European cities and be publicly presented (exhibitions, performances) in cultural spaces around Europe. The <b>Community Workshops</b> take place in city neighborhoods where artistic practice and fruition are distant, or that are socially segregated. Developed in partnership with local social organizations and a diversity of artists, they have been devised to promote synergies and connections between people from different socio-cultural and economic backgrounds and creative areas. These workshops engage communities and artists in the development of collaborative work, calling upon the participation of children, youths and older generations, to create outputs such as public art installations, urban interventions, performances and music
Partners currently involved in the project	-
