Aims and activities of the organisation	The main objectives of the association are: a. activities for progressive rock music b. developing and creating culture, supporting and promoting artists, c. cultural activities,
Role of the organisation in the project	project leader
Previous EU grants received	

Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	Progressive rock music
Description or summary of the proposed project	Project name: PROGRESSIVE TOUR The project would involve the organization of musical events in the genre of progressive rock in various European countries in order to promote this music. Preferably in the form of festivals, where, in addition to the most important music, they should be accompanied by attractive supporting projects (such as painting exhibitions, photo exhibitions, promotion of music and book publications, etc. It should be emphasized that these would be interdisciplinary projects, combining various fields and cultural environments. Progressive rock is sometimes beautifully called music raised to the rank of art. Music for thinking people. Some say that his best years are behind him. We don't think so, because music from this genre draws from many genres. Its biggest problem is that it does not break through to the so-called mainstream mass media. It used to be different. That is why there were well-known bands playing progressive rock, such as: Pink Floyd, Genesis or Marillion.
